

# Build One in Hours...not Years!

Blend Old & New with our Fiberglass Components

89-97 T-Bird-Cougar Sport Coupes are readily available at reasonable prices. They come with 3.8, 3.8 supercharged, 5.0 small block and 4.6 modular motors and can be hopped up easily. Of course, they have P/S, P/B, P/W, Air, etc. Later cars also have ABS and Air Bags.

Just unbolt front fenders, hood and hinges and trim front radiator support. This is the only cutting on the car! The radiator, battery and all mechanicals stay in place. The only thing disconnected are the lights. The car stays fully mobile.

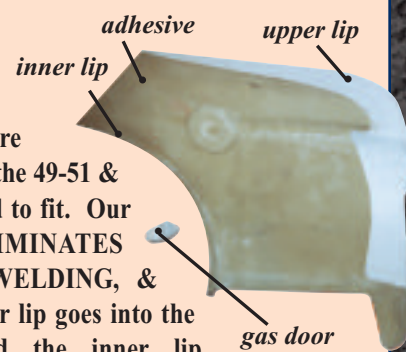

**www.EasyRods.com** - ASK YOUR KIDS TO SHOW YOU! - has the hints and tips to further disguise the look of the stock Thunderbird or Cougar.

Just unbolt the trunk lid, tail lights, and rear bumper cover. Remove stock gas door from hinge and trim as required. Our gas door simply glues and screws to original hinge.

**THIS IS THE BEAUTY PART OF THE DESIGN!** When these cars are built by custom builders, the entire rear section is cut off both the 49-51 & 89-97 models and modified to fit. Our patent pending design **ELIMINATES ALL THE CUTTING, WELDING, & HARD WORK.** The upper lip goes into the original trunk gap and the inner lip surrounding the wheel area simply glues and screws to the 89-97 vehicle 1/4 panel.

Our design uses the stock hinges, latch, solenoid, and weather strip ensuring a much better seal than any custom built set-up. Also the 1/4 panel skin overlays fit into the original trunk gap and wheel lip. They start over the wheel area about as thick as a pizza box & get thicker as they go back. As a result, very little blending is required.

For Just

**\$3,595.00**

## BASIC KIT CONTAINS:

- Fiberglass Hood
- 2 Front Fenders
- Grill Shroud
- Trunk Lid
- 2 Rear 1/4 Panel Overlays
- Rolled Rear Pan
- Gas Cap
- Metal Gravel Shield
- Fender Braces
- Hood Hinges
- 2 Tubes 3-M Panel Adhesive
- Assembly Video
- Instructions
- Delivery

**New!** **CHOP TOP KIT!**

**"CHOP" YOUR TOP WITHOUT CUTTING ANY METAL OR GLASS!** New design simply overlays the stock T-Bird roof and rear window and raises the door sills and rear 1/4 window up 3" - 4" to give the cool chopped look to your EasyRod.

# It's a Cool & Radical Way to Build a Hot Rod!

The 15 piece high quality fiberglass Belaro kit is pre-engineered to be assembled in hours – not years!! Notice that the front bumper is part of the front fender (it bolts to the stock 93-02 Camaro mounts), the hood is a direct replacement for the stock Camaro hood (it uses stock hinges, struts, latch & catch and all original bolts), the 2 door panels cover the curved Camaro doors, and THE BEAUTY OF THE DESIGN, our quarter-panels snap into the original trunk gap; under the roof, into the door jam and wheelwells; and simply glue OVER the original Camaro quarter panels and include all the '57 Chevy details!

Like 150 trim, LED tail lights, bumpers and light buckets for the Camaro brakes, Directional & Backup light sockets.

The '57 rear bumper cover goes over the stock Camaro bumper and cleans up the bulkhead under the Camaro taillights.

The Belaro trunk lid overlays the stock Camaro trunk.

All in about 50 hours!!!

Follow the four picture story below and call 609-693-1631 or email [easyrods@comcast.net](mailto:easyrods@comcast.net) to order yours today

- Our 15 piece high quality Belaro kit fits all 10 years of 93-02 Camaros
- Coupe, T-Top or Conv
- V6 or V8
- Stick or Auto
- All have FI, Overdrive, Airbags, PS, Tilt Wheel, PW, etc.

It's takes 3-4 hours to remove the Camaro hood, bumper, fenders, taillights, rear bumper cover and gas cap door. Our fiberglass components bolt on, screw on and glue on in approximately 50 man hours.

Belaro kit is complete with everything needed to build! Sandblock sand paper, self tap screws, fiberglass mat, 7 tubes of adhesive, headlight rings, buckets, pigtails, LED taillights, directionals & backup lights, DVD, instructions and delivery!

Add finish bodywork, paint and chrome to your taste and be driving a cool & practical Easy Rod in hours – not years!

For Just  
**\$5,595.00**
